

TECHwings Software Solutions

Delivering Enhanced Revenues

TECHwings Software Solutions

- Formed by professionals from the IT & airline industry...
- Have a strong domain & consultancy background...
- The company's focus is entirely on the Travel & Airline vertical...
- Our company is working towards offering the industry revolutionary developments on existing products...
- Identified many gaps in the market and are today with our clients and in-house teams creating & developing new and exciting products which meet the immediate needs of the industry...

RevenuePLUS

- “Revenue Budgeting & Monitoring System” has been tested & the now enhanced
- RevenuePLUS has been successfully implemented in Legacy Carriers such as **Etihad** & LCC carriers; **Fly Dubai**, **Air Arabia** & now also **RAK** Airways
- 4 airlines (& soon a 5th & 6th) are already successfully running their entire commercial process on our system which is proof enough of the success of the system.
- We have many more clients in the pipeline and we are very now keen to expand our client base hence our proposal today to Qatar Airways.

Next Steps

- If you would like to meet with the developers this can be arranged.
- For further information please do not hesitate to contact either myself or my colleagues in India
- My contact details are as follows;
 - Duncan Osborne; +49 174 945 1187
